7176M, new memo

UNITED STATES DEPARTMENT OF AGRICULTURE  
AGRICULTURAL ADJUSTMENT ADMINISTRATION  
Washington, D.C.

July 30, 1938.

MEMORANDUM TO COMMUNITY COMMITTEEMEN  
IN PENNSYLVANIA AND WESTERN NEW YORK

AUG 25 1938 NY

In response to a number of inquiries regarding procedure to be followed by producers in securing wheat loans in New York and Pennsylvania, the following statement has been issued by the Agricultural Adjustment Administration:

Because of the danger of damage to stored wheat in humid areas, loans may be made in New York and Pennsylvania only on wheat stored in warehouses approved by the Commodity Credit Corporation.

At present the only approved warehouse in the States of Pennsylvania and New York is at Lockport, New York. Apparently owners of other warehouses have not yet applied to the Commodity Credit Corporation for approval.

Wheat producers interested in securing loans on the 1938 harvest who are not conveniently located to Lockport, New York should contact their local miller or elevator operator and discuss with him the possibility of such local miller or elevator operator making application for Federal approval of his storage facilities.

We believe you will want to keep your State office informed with respect to the demand for wheat loans in your community and whether wheat farmers are experiencing difficulty in securing such loans.
